What Makes Us Different...

- An hour of service means **60 minutes**, not the industry standard 50-min (more often, 45-min) of body contact.
- There is **no pressure** to buy a **membership** from us, although it is available and offers a substantial discount off our services.
- We offer **unusual services** such as Thai massage, cupping, gua sha (skin scratching to release trapped Qi), that you won't find in most spas.
- We are **mobile** so we will come to you. For a nominal travel charge, most of our services can be provided at your location if you have enough space.

Something to think about...

Clients get better services at our studio simply because we can't take all tools to your location.
